 - The **First round of judging** will take place between April and June under the direct supervision of the Judging Department. First round jurors will view entries and vote online.
 - The **Semi-Final round of judging** is coordinated worldwide by the Academy. Under the direct supervision of the Judging Department, Hosts (members of the Academy) invite television professionals to participate as jurors during this second stage of judging held between June and September. After the Official Ballots are received by the Academy's official tabulation firm **Ernst & Young**, the program with the highest score in each region, in each category, becomes a nominee and proceeds to the Final round of judging.
 - The **Final round of judging** for all categories will be held in October, except for the News and Current Affairs categories which will take place in early August. Programs to be judged in the final round of judging are sent, online, to individuals chosen under the direct supervision of the Judging Department. The completed Official Ballots are collected by **Ernst & Young** where they are checked for authenticity and tabulated. The winner is the top ranking program from among the nominees and is not revealed until the awards ceremony.
- b. All entries are judged by experienced television professionals.
 - All jurors are required to sign a non-disclosure and non-distribution agreement prior to viewing any entered program.
- c. In the First and Semi-Final rounds of judging for Program categories, jurors are asked to rate each entry on its own merits (not comparatively) by a point scoring system based on two criteria: concept and execution. For Performances, scoring is exclusively based on the quality of the performance. In the Final round of judging, jurors judge the nominees in direct competition with one another and rank them.
- d. All entries are viewed in English only, using English subtitles, regardless of country of origin or where the program is being judged.
